*The Officers thus marked are resident.

LITTLEMORE ASYLUM.

[*comprising an Union of the Counties of Oxford and Berks, the City of Oxford, and the Boroughs of Abingdon and Windsor, for the maintenance of their Pauper Lunatics*].

At the first Meeting of the Committee of Visitors of the PAUPER LUNATIC ASYLUM at LITTLEMORE appointed for the Year 1870, held at the Asylum (pursuant to due notice), on Wednesday the 26th day of January 1870, being within one Calendar month after the election of the present Committee,—

PRESENT

HUGH HAMERSLEY Esquire, *Chairman*
ARTHUR HENRY CLERKE BROWN Esquire
WILLIAM EARLE BISCOE Esquire
Captain JOHN AUGUSTUS FANE
Justices of Oxfordshire;

GEORGE CHARLES CHERRY Esquire, *Vice-Chairman*
THOMAS LEINSTER GOODLAKE Esquire
THOMAS BROS Esquire
WILLIAM GEORGE MOUNT Esquire
DANIEL BENNETT Esquire
JOHN KIRBY HEDGES Esquire
Justices of Berkshire;

RICHARD JAMES SPIERS Esquire
ISAAC GRUBB Esquire
JOHN TOWLE Esquire
Justices of the City of Oxford;

RICHARD BADCOCK Esquire
A Justice of the Borough of Abingdon; and

WILLIAM REDFORD HARRIS Esquire
A Justice of the Borough of Windsor.

Resolved that the following

REPORT*

of the SUPERINTENDENT be printed and circulated.

TO THE COMMITTEE OF VISITORS.

GENTLEMEN

The number of Patients remaining in the Asylum on the 31st of December

* RULE 25.—[of the General Rules of the Asylum]. The Superintendent shall submit to the Committee of Visitors, at their first Meeting after the Epiphany Quarter Sessions annually, a Report in writing, of the general condition of the Asylum, and the number and character of the Patients; distinguishing the numbers who have been received and discharged as cured; the number of re-admissions; the number employed, and in what manner; the deaths which have occurred in the preceding year, and also the total number of discharges, cures, and deaths since the opening of the Institution, and specifying the sexes in each statement; with such other facts as the Superintendent may think desirable, or which the Visitors may have suggested.

1868, was 492, of whom 213 were Males, and 279 Females.

The number of admissions during the year 1869 was 167, of whom 71 were Male and 96 were Female Patients.

The number of discharges in 1869 was 83, of whom 28 were Males, and 55 were Females.

The number of deaths was 74, 32 who died being Male, and 42 Female Patients.

The number of admissions was 6 in excess of any previous year, and 19 in excess of the year 1868.

It will be seen that Table 4 indicates that Patients are not sent to the Asylum until they have been insane so long as to render their chance of recovery at least doubtful; and this Table contrasts unfavorably with the corresponding one of the previous year (1868). In the latter year, 42 Patients were admitted before they had been ill a week; but in 1869

33 only were so admitted. Of those who had been previously ill for a month, the number is 58 in 1868 against 39 in the past year. And of those who had been previously ill for 6 months, the number was 15 in 1868, and 59 in the following year. In 1868 two thirds were admitted who had been insane for a month only, or less; whilst in 1869 the proportion is nearly three sevenths.

The influence of age in the process of recovery, is shewn in Table 3; and it contrasts unfavorably with the similar statistics of the year 1868. For in that year, 14 out of the 148 Patients who were admitted, were under the age of 21; whereas in 1869 the like number was 13 out of 167. And the number of Patients admitted under the age of 30 was 43 in each of the two years in question. Admitted under 40 years of age, the number was 81 in 1868, against 72 in 1869. Admitted over 60 years of age, the like number was 23 against 25. The ages on admission during the past year, have

varied from 14 to 84; the average age being 43.

The condition of bodily health on admission, accounts in great measure for so high a rate of mortality. 23 Patients were afflicted with General Paralysis; 30 had other forms of Paralysis; and 13 were Epileptic.

Of the 167 Patients admitted during the year 1869, 71 were Males, and 96 were Females; and of these 10 Males and 18 Females recovered, and were discharged; being 14.084 per cent. of Males, and 18.75 per cent. of Females. And the total per centage was 16.766.

Of the above 167 Patients, 11 Males and 9 Females died; being 15.492 per cent. Males, and 9.375 per cent. Females. Or a total per centage of 11.976.

Of the number of 83 Patients discharged in 1869, 28 were Males and 55 were Females. 61 of them (17 Males and 44 Females), had

recovered; being 5.985 per cent. of Males, and 11.73 per cent. of Females; or 9.256 per cent. on the whole number of Patients under care during the year.

The deaths in the year were those of 32 Males, and 42 Females; being 11.267 per cent. of Males, and 11.2 of Females; or 11.229 per cent. on the whole number of Patients under care during the year.

The death rate (calculated upon the whole number chargeable to the Bodies in Union), was 9.065 per cent. of Males, and 9.808 per cent. of Females; being a total per centage of 9.529.

The proximate causes of death were as follows:—

Paralysis in 34 Patients.

Old age in 15.

Disease of the Lungs in 9.

Disease of the Heart in 4.

Erysipelas in 2.

Of the above, 10 of the deceased Persons had been subject to Epilepsy; and a Coroner's Inquest was held upon the body of one of those ten.

G. D., aged 62, had been in the Asylum 12½ years, and was subject to frequent and severe attacks of Epilepsy, in one of which attacks he died, and he was found dead in his bed.

The average age at death was 55½ years.

The duration of insanity prior to admission of those who died, varied from 3 days to 24 years. 20 of the deceased Patients had been insane for a period of a month only, or less. And 32 had been insane more than a year.

During the autumn, Scarlatina was epidemical in the neighbourhood, and it made its appearance in the Asylum on the Male side. J. P., aged 14, passed through a mild form of the disease, and was progressing

favorably, when a distinct relapse took place and the Patient became typhous, and died. But I am happy to be able to state that no other case occurred.

The general health of the Asylum has been good; and I have pleasure in again recording that there has been no case of suicide during the year.

The total number of Patients belonging to the Bodies in Union, is 663; and they are distributed as follows.

	M.	F.	Total.
In the Littlemore Asylum	223	270	493
In the Buckinghamshire Asylum	7	0	7
In the Worcestershire Asylum	0	45	45
In the Dorset Asylum.....	43	45	88
At Fisherton House, Salisbury	30	0	30
	303	360	663

The average number of Patients daily resident during the year, has been 218 Males, and 272 Females. (Total 490). The number of Patients in the year 1869, chargeable as above, was therefore two in excess of any previous year.

I should note that S. D. made her escape on the evening of the 31st of March last, by breaking a window on the ground floor, and that she has not since been heard of. There was at the time every probability of her being discharged in a few weeks, owing to her improvement in mental and bodily health.

Seclusions occurred during the year in the cases of 2 Males and 3 Females, but they were for short periods only.

The supply of Gas throughout the first year of its manufacture at the Asylum, has been sufficient in quantity and good in quality. The quantity produced from 111 tons of Radstock Coal was 887,000 cubic feet, at a cost of £96 17s. 2d. including the Coal, the extra labour, and Lime. Notwithstanding the interest of the Capital expended in establishing the Works, and the burden of payment of the Capital itself (which was borrowed, to be paid off by instalments in ten years), the Scheme will be financially in favor of Gas over Oil.

Occupation and amusements for the Patients continue much the same as heretofore. The Library has increased in the number of its Volumes, and the interest taken in it has also increased. And the new regulations as to the Band have worked satisfactorily.

The Female Infirmaries have been made much more cheerful by lowering two Windows in each of the Wards; one result of which is that Paralytic Patients when reclining in low Rocking Chairs can see into the Garden.

It is due to Mr. Marsh (my assistant Medical Officer), to remark that he has proved, throughout the year, an able and useful Colleague; and I regret that he is purposing, with a view to professional advancement, to leave this Asylum.

Much credit also, is due to all the Officers and Attendants generally, for the efficient manner in which they have performed their duties throughout the past year;

whereby the duties of your Superintendent have been less irksome, and his anxiety has been diminished.

The usual statistical Tables required of the Superintendent, as well as the Tables of the Clerk and Steward, are appended.

In conclusion I desire to thank the Visitors for their kind consideration and support during the past year.

I have the honor to be,
Gentlemen,
Your obedient, humble Servant
HEURTLEY SANKEY
Superintendent.

Summary of Patients chargeable to the Counties of Oxford and Berks, the City of Oxford, and the Boroughs of Abingdon, Reading and Windsor, in the year 1869.
